User Stories:

Must-required for a usable MVP

Progress update: As a user, I want to be able to see my progress increase as the work I do increases.

Overview: As a user, I want to be able to view the workload of my current tasks so that I can stay up to date.

Create events: As a user, I want to create events that occur on a specific date so that I can keep track of events.

Create a task: As a user, I want to create a task so I can keep track of the work I do.

View the tasks & events: As a user, I want to see all my tasks and events, so I know what I need to do with my time.

Edit the tasks: As a user, I want to edit task details so that I can update the tasks as needed.

Task completion: As a user, I want to mark a task as complete so that I can track my progress.

Overdue or incomplete tasks: As a user, I want to be able to know when a task is either incomplete or overdue, so that I know what to prioritize.

Task size: As a user, I want to be able to label tasks as either small or large so that I know the amount of workload needed.

Should – important, but not required for MVP

Upcoming tasks: As a user, I want to be able to see daily tasks so that I can prepare ahead of time.

Filtering: As a user, I want to be able to turn on filtering where it shows uncompleted tasks so that I can focus on those as soon as possible.

Filter completed tasks: As a user, I want to filter tasks that are completed so that I can be more organized.

Delete: As a user, I want to be able to delete old tasks/events so that I can have a clean workflow.

Could – optional enhancements

Search: As a user, I want to search for specific tasks so that I can find them quickly.

Sort: As a user, I want to sort my task by size so that I can choose what's best for me.

Visual indicators: As a user, I want a visual indicator on larger tasks so that it stands out.

Won't - out of scope or not a priority

Sync with other apps: As a user, I want to sync with my phone calendar so that I can have a consistent schedule.

Notifications: As a user, I want to receive push notifications for upcoming tasks so that I will never forget a task.

Share: As a user, I want to share my tasks with others so that we can work together.
